

Felipe Sartore Perez de Azevedo

INFORMATION SECURITY ANALYST & SOFTWARE DEVELOPER

+55 13 997010843 · felipesartore@yahoo.com.br · [linkedin.com/in/felipe-sartore](https://www.linkedin.com/in/felipe-sartore) · São Paulo, SP — Brazil

SUMMARY

Information Security Analyst and Software Developer with experience in Fullstack development and a focus on DevSecOps. Seeking roles in security engineering, risk analysis, or SOC, integrating security into the development lifecycle and mitigating vulnerabilities in CI/CD pipelines. Primary languages: Python, JavaScript, and Java. Background in secure API development, microservices, hardening, cloud security, log analysis, incident response, and compliance with OWASP and NIST.

EXPERIENCE

BRQ — Santander

Aug 2025 — Apr 2026

Software Developer · São Paulo, SP

Optimized document parameterization services using Java and Spring. Developed proxy systems to unify communication with the parameterization authority. Delivered improvements via Java code optimization and conversion of stored procedures to native PostgreSQL queries, backed by robust test suites.

Java 11, Java 17, Spring Boot, Jenkins, PostgreSQL, GitHub Actions, Apache Kafka

MJV — Bradesco

Nov 2024 — Apr 2025

Software Developer · São Paulo, SP

Built and maintained RESTful APIs for Automotive Insurance systems using Java 11/17 and Spring Boot. Developed manual and automated tests with Postman and JUnit, and delivered technical solutions for client challenges.

Java 11, Java 17, Spring Boot, Hibernate, JUnit, DB2, Bitbucket

Runtalent — C&APay

May 2024 — Jul 2024

Software Developer · São Paulo, SP

Created and maintained RESTful APIs for banking services with Java 21 and Spring Boot. Used Docker for portable environments across cloud providers. Wrote automated tests for APIs and UI using Postman, JUnit, and proprietary Angular 8 frameworks.

Java 21, Angular 8, Spring Boot, Hibernate, JUnit, PostgreSQL, Docker, AWS, Azure

IBM

Feb 2022 — Jan 2024

Software Developer / DevSecOps · São Paulo, SP

Worked in DevSecOps across Unix and Windows environments with focus on security, automation, and compliance. Performed log analysis, SQL error mitigation, and incident response. Developed secure microservices and RESTful APIs applying OWASP Top 10 protections. Built CI/CD pipelines with Jenkins, Docker, and Kubernetes. Applied Scrum/Kanban and IT governance (COBIT 5).

Java 11/17, Spring Boot, Node.js, Jenkins, Docker, Kubernetes, AWS, Azure, DB2, SQL/NoSQL

Freelancer

Jan 2021 — Dec 2021

Security-focused Full-stack Developer · Remote

Secured APIs through robust authentication, access control, data encryption, and OWASP Top 10 mitigations. Diagnosed complex security and performance issues. Managed project scope, timelines, and deliverables with security embedded from day one.

Java, JavaScript, Spring Boot, Node.js, OpenVAS, Nessus, BurpSuite, Grafana, Prometheus, RabbitMQ

Software Developer · Praia Grande, SP

Designed custom WordPress plugins hardened against code injection, XSS, and CSRF. Built secure search and filtering features. Delivered a scalable product catalogue with caching, query optimization, and load balancing.

HTML5, Bootstrap, WordPress, JavaScript, Node.js, Java, PHP, MySQL, SEO

EDUCATION

Masters — Strategic Management in Information Technologies

Universidad Europea del Atlántico · Feb 2026 — Present

Postgraduate — Software Engineering

UniAlphaville · Jun 2024 — Dec 2024

Technologist — Cyber Defense

FIAP · Feb 2021 — Dec 2023

Technical Certificate — Computer Science

Etec de Praia Grande · Jan 2017 — Dec 2019

CERTIFICATIONS

- Cisco CyberOps Associate — Cisco
- Certified Network Security Specialist — ICSI
- IT Support Professional Certificate — Google
